## Motion for Reconsideration

This Court had previously suggested I shouldn't file my Complaint + Affidavit, I did promptly comply. So for the trial court to summarily dismiss my case is prejudice bec my case concerns several issues that have never been heard in this court. So the trial judge is wrong to summarily dismiss my case w/o evidence. This case should be promptly restored bec. the judges action didn't give me any notice or justification why he did that. His action is an abuse of his discretion and it violates my Due Process. Ask for a jury trial.
